

## About the HDR images on this DVD

All HDR images on this DVD are taken with the SpheroCam **HDR** - the world's only camera, that captures a full spherical HDR image within a single scan.

The SpheroCam **HDR** is able to capture 26 f-stops of dynamic range within a single scan operation, providing a 360° x 180° image and resolution of up to 50 mega pixels. The technology provides the optimum image quality for use within IBL (image based lighting). The latest camera release (August 2007) incorporates a specially designed tripod which includes a mounting unit and Spheron**VR**'s three dimensional immersive measurement device.

This advanced camera technology, developed by Spheron**VR** AG is easy to set-up and reliable every time in capturing your scenes. So there is no more stitching, no more mapping, just one scan with the SpheroCam **HDR** and it is done.

## About Spheron**VR** AG

Spheron**VR** AG is one of the most innovative companies in the area of visual information technologies.

Core products for panoramic, spherical and HDR (High Dynamic Range) imaging are building the foundation of the ground-breaking concepts. Pioneering developments of specialist hard- and software-solutions allow Spheron**VR** to support trendsetting new ways of "doing things". Comprehensive service offerings complete the professional portfolio.

Based on those core technologies and offerings, Spheron**VR** is developing workflow supporting solutions. Designed for highly specialist applications Spheron**VR** is focussing on three mayor markets today:

- ▶ Digital Camera Systems for panoramic, spherical & HDR imaging
- ▶ Photorealistic Visualization for automotive marketing purposes.
- ▶ Digital, visual based scene documentation in the areas of crime scene documentation, tactical training, critical infrastructure protection and huge damage documentation

The 35 people strong team in Spheron**VR** AG is based in Waldfischbach-Burgalben, near Kaiserslautern, Germany and develops, manufactures and sells its technologies and solutions. Strategic partnerships and sales channels allow Spheron**VR** AG to offer their unique portfolio to a worldwide market.
